About US

Our Journey

The story began in 2004, when we were just a passionate team of lighting "Provider". We strive to learn every aspect of light with passion. Ten years later, Cahaya Desain Indonesia was established in 2015 with its sole purpose to deliver best Value by adding professionalism to passion.

Our Vision

PROVIDE SOCIETY WITH LIGHTS

To become market leader in premium lighting solutions in Indonesia, providing high-quality products, professional services, and reliable execution.

Our Mission

- *Delivering comprehensive solutions for premium lighting requirements.*
- *Serving as a trusted partner for architects, interior designers, and lighting consultants.*
- *Transforming lighting concepts into refined and inspiring realities.*

Project Portfolio

GARUDA WISNU KENCANA

Location : Garuda Wisnu Kencana , Bali

Year : 2022

Application : Visitor Area KTT G20 Event

In Collaboration With

Helvar

LTECH

Lenore

COLORS

CASAMBI

Project Description

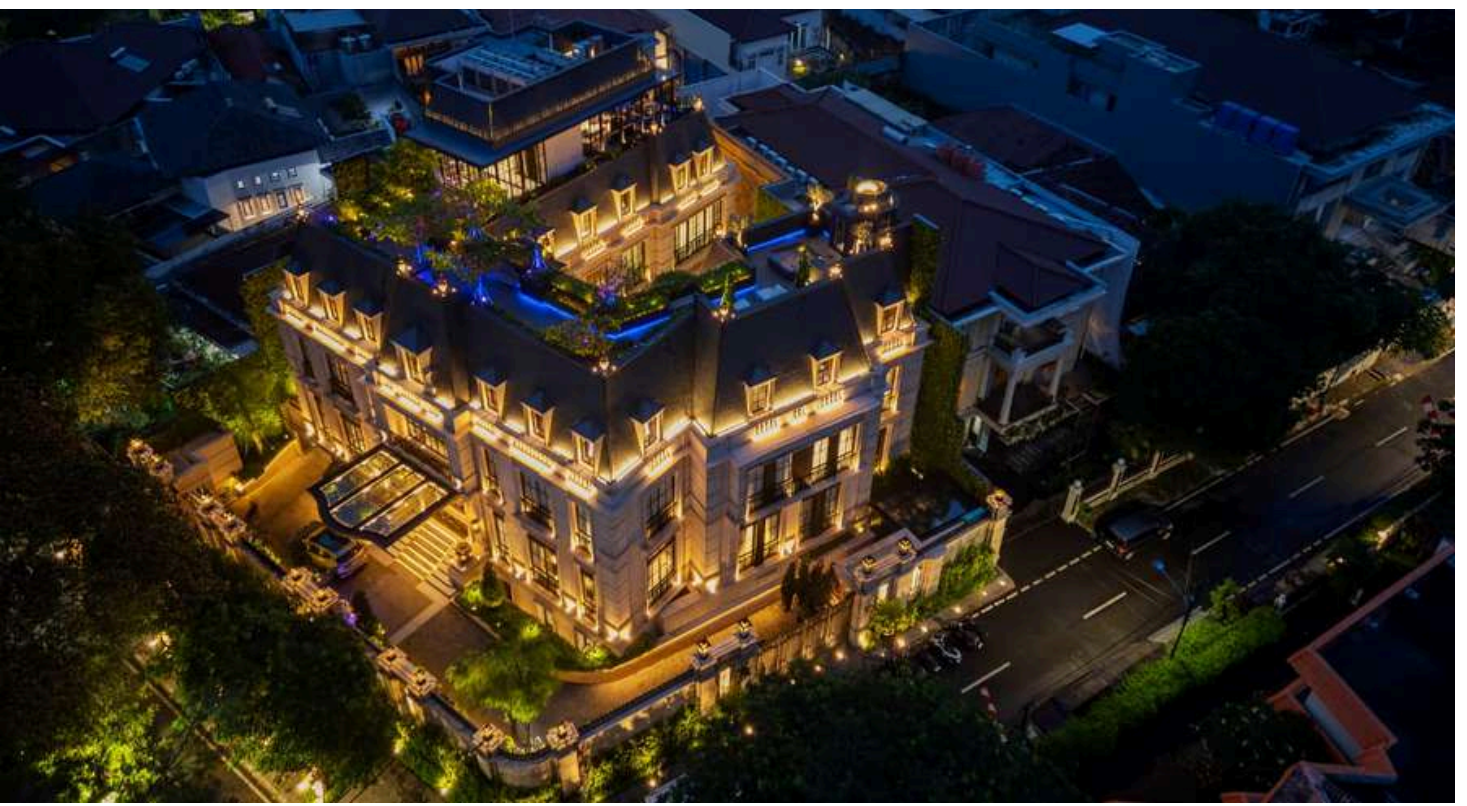

The architectural lighting at Garuda Wisnu Kencana Cultural Park, Bali, was designed to support the visitor experience during the G20 Summit event. The lighting approach focuses on highlighting the monumental landscape and natural rock formations surrounding the iconic Garuda Wisnu Kencana statue, creating a balanced atmosphere between cultural heritage and contemporary lighting design.

Through carefully positioned landscape accent lighting, the project enhances spatial depth and visual guidance for visitors while maintaining the natural character of the site. The lighting system was developed in collaboration with trusted technology partners including Helvar, Ltech, Colors, and Casambi as a smart system, ensuring reliable control performance and lighting quality throughout the visitor area.

Public Area

PRIVATE RESIDENCE JAKARTA

FLOS

Project Description

This private residence in South Jakarta explores a refined architectural lighting approach designed to highlight the building's façade, interior spaces, and landscape elements. The lighting composition enhances the architectural character of the residence while creating a warm and welcoming atmosphere throughout the property.

The project was developed in collaboration with LITAC as the lighting consultant, integrating carefully selected lighting solutions and control systems from trusted technology partners. The result is a balanced lighting environment that supports both aesthetic expression and technical performance.

Private Residence

RESTAURANT

Location : Restaurant , Jakarta

Year : 2025

Application : One of Indonesia's distinguished fine dining destinations

In Collaboration With

Project Description

This restaurant project in Jakarta presents a carefully crafted lighting environment designed to enhance the refined dining experience. The lighting approach emphasizes warmth, visual comfort, and subtle architectural highlights, creating an intimate atmosphere that complements the restaurant's contemporary interior design.

Developed in collaboration with trusted technology partners including LUCI Lighting, ENDO Lighting, and the Casambi smart control system, the lighting solution integrates both aesthetic and technical considerations. The result is a balanced lighting composition that supports the spatial character of the restaurant while providing a comfortable and inviting setting for guests.

BEACH CLUB CANGGU

Location : Beach Club , Bali

Year : 2024

Application : One of Canggu's premier beach club experiences

In Collaboration With

CASAMBI

Project Description

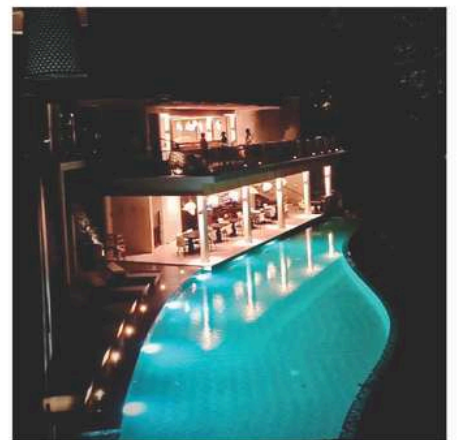

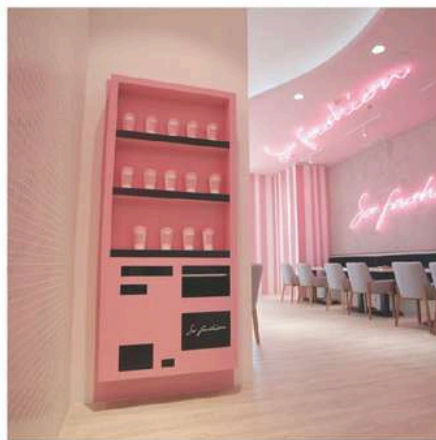

A refined lighting design for one of Canggu's premier beach clubs, designed to evoke a warm, relaxed, and sophisticated atmosphere. Through carefully balanced lighting layers, the concept enhances spatial character and creates an inviting ambience that complements the vibrant yet laid-back coastal lifestyle.

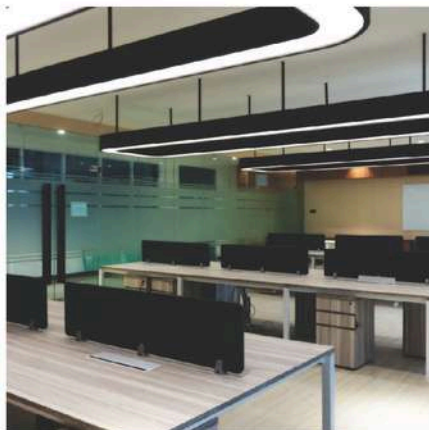

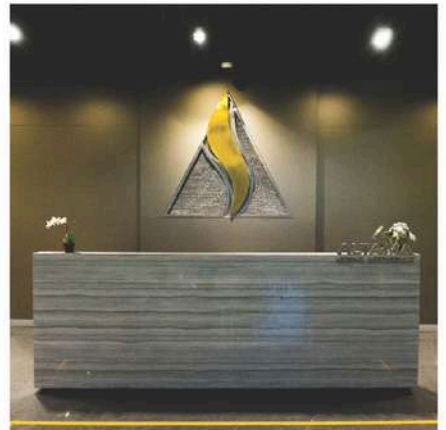

Lighting consultancy by Binar Lighting Studio, in collaboration with LUCI Lighting, Endo Lighting, and Casambi smart lighting control system
